**SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**

Dear Sir:

In accordance with the provisions of 37 CFR 1.56, Applicants hereby make of record the references set out on the attached form PTO/SB/08A.

A copy of each non-U.S. patent reference is enclosed. The Office has waived the requirement pursuant to 37 CFR 1.98 (a)(2)(i) for submitting a copy of each cited U.S. patent and each U.S. patent application publication for all U.S. national patent applications filed after June 30, 2003 and for all international applications that have entered the national stage under 35 USC § 371 after June 30, 2003. Therefore, no copies of each cited U.S. patent are enclosed, but the cited U.S. patents are listed on the enclosed PTO/SB/08A form.

Each of the references (other than GB 2,203,043) was cited in a foreign search report, namely the International Search Report issued in corresponding PCT Application No. PCT/CA2005/000003, mailed May 12, 2005.

Applicant submits that the relevancy of the foreign language cited references, JP64002551, JP61056102, JP1265854 and JP2000191421, is that these references were cited in a foreign search report. Applicant encloses the English language abstract for these references. No English language translation for these references is in the possession, custody or control of, or is readily available to, any individual associated with the filing or prosecution of this application. A copy of GB 2,203,043, which claims priority from the same application as JP64002551 (priority application HU19870001174), is enclosed.

I hereby certify that each item of information contained in this information disclosure statement (other than GB 2,203,043) was cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the statement. A copy of GB 2,203,043 was obtained subsequent to the communication from the foreign patent office.

No representation is made that a reference is "prior art" within the meaning of 35 U.S.C. §§ 102 and 103, and Applicants reserve the right, pursuant to 37 C.F.R. § 1.131 or otherwise, to establish otherwise. Moreover, Applicants do not represent that a reference has been thoroughly reviewed or that any relevance of any portion of a reference is intended.

It is respectfully requested that the information be expressly considered by the Examiner and that the references be made of record and appear among the "References Cited" on any patent to issue therefrom.

Respectfully submitted,

Date: July 27, 2005
